

Hall of Fame Committee Report

IGRA Board of Directors Meeting
San Diego, CA
November 14, 2013

During the Hall of Fame Committee report at last year's IGRA Convention I told the delegates multiple sources of information that they could access to find individuals worthy of nomination to the Hall of Fame. We still did not receive very many new nominations over the past year and I assume that part of the reason is the difficulty in researching the necessary information to enter on the Hall of Fame nomination form.

I have spent some time this year compiling the information from multiple sources into one document that lists individual accomplishments by their Member Association. A difficult task because of the way some individuals move their membership from Association to Association.

I have attached three documents. The first is the listing I just mentioned. The other two documents are: IGRA Committee Chairs and IGRA Certified Officials. These two lists have not been completed yet, because I am still trying to locate the data from 1995 to approximately 2000. I have not had time to add the names from these two lists into the listing by Member Association, but I do intend to get this done soon.

The Hall of Fame Committee is requesting permission from the Board to include this information on the IGRA Web site. We would like it to be a link that is accessed from the Hall of Fame site, so that members of all IGRA Member Associations can access the information to assist them in researching Hall of Fame nominations.

The list may be in its current format or it may be broken out into separate lists for each of the Member Associations. This will be determined while I work with Frank Harrell on this project.

I will be driving to San Diego on Thursday morning but I may not make it to the meeting before you conclude your business. I do have "hands-free" cellular service in my car so if you have any questions for me, please call 626-384-1554.

Sincerely,
Roger Bergmann
Hall of Fame Committee Chair
